Copyright and Moral Rights

No part of this document may be reproduced or distributed in any form or by any means without prior permission from a representative of Austral Archaeology Pty Ltd. Austral Archaeology Pty Ltd also reserves the right to use documents and materials produced for this project for future presentations or publications, if required.

In the preparation of this report historical sources and other reference materials are acknowledged in text citations and in a separate section at the end of the report. Reasonable effort has been made to acknowledge and obtain permission from the relevant copyright owners.

ACKNOWLEDGEMENT OF COUNTRY

We respect and acknowledge the First Nations Peoples of the lands and waterways on which we live and work, their rich cultural heritage, and their deep connection to Country, and we acknowledge their Elders past and present.

CULTURAL WARNING

Aboriginal and Torres Strait Islander readers are advised that this report may contain images or names of First Nations people who have passed away.

AUSTRAL VARCHAEOLOGY

EXECUTIVE SUMMARY

This document presents Volume 2 of the Aboriginal Cultural Heritage Assessment (ACHA) prepared by Austral Archaeology Pty Ltd (Austral) for Sealark Pty Ltd (the client). This volume contains the consultation documents with Aboriginal stakeholders detailed in Volume 1.

This document should be read in conjunction with Volume 1, which presents the ACHA report, and Volume 3, which includes the test excavation data.

STAGE 1.2 - REGISTRATION OF INTEREST | REGISTRATIONS

Contact		Contacted By		Details		
Organisation	tion Person Organisation Person Date Method		Method	Organisation		
Austral	KE	Kamilaroi Yankuntjatjara Working Group	Philip Khan	2/06/2022	Email	Wishes to be involved and participate in all levels of consultation and project involvement, attend all meetings, participate in available fieldwork and receive a copy of the report.
Austral	KE	Warra Bingi Nunda Gurri	Nathanial Kennedy	2/06/2022	Email	Registered for the project to be included in any further correspondence and fieldwork.
Austral	KE	Guntawang Aboriginal Resources Incorporated	Wendy Morgan	3/06/2022	Email	Stated that this organisation holds cultural knowledge on this project and would like to express their interest in said project.
Austral	KE	Three Ducks Dreaming Surveying and Consulting	Leonard Wright	3/06/2022	Email	Expressed interest in the project and asked to be emailed with suggestions and comments at any time.

Contact		Contacted By				Details
Organisation	Person	Organisation	Person	Date	Method	Organisation
Austral	KE	Kamilaroi Yankuntjatjara Working Group	Philip Khan	6/06/2022	Email	Explained experience of the organisation and that they all wish to be involved with all aspects of the project. Attached copies of their rates, public liability cover and workers comp cover.
Austral	KE	Thoorga Nura	John Carriage	6/06/2022	Email	Stated they would like to be included in registrations and consulted on the project.
Austral	KE	Murra Bidgee Mullangari Aboriginal Corporation	Ryan Johnson	8/06/2022	Email	Asked to be registered for the project, explained that the organisation has done many projects in the area and surrounding areas with more than 26 years of experience.
Austral	KE	South Coast People / NTSCorp	Conor Wakefield	8/06/2022	Email	Requested to register Applicant for the South Coast People's native title application on behalf of the South Coast People, as knowledge holders for this project and a party to be notified and involved throughout the assessment process. This party is only to be contacted through their legal representatives NTSCorp. Also asked Austral to confirm if and when Aboriginal knowledge holders are intended to be involved in field surveys, test excavations and any cultural heritage monitoring. It is the Applicant's position that the aforementioned work should be undertaken by members of the application. Once Austral provides this confirmation the Applicant will provide nominations for Aboriginal knowledge holders to be engaged.
Austral	KE	South Coast People / NTSCorp	Conor Wakefield	8/06/2022	Email	Responded to the date correction email sent for the project.

APPENDIX A2 - STAGE 1.1 - LETTERS TO AGENCIES

Reference: 22054 17 May 2022

RE: STAGE 1: REQUEST FOR INFORMATION FOR ABORIGINAL CULTURAL HERITAGE ASSESSMENT & ABORIGINAL CULTURAL HERITAGE MANAGEMENT PLAN FOR WEST CULBURRA DEVELOPMENT, CULBURRA, NEW SOUTH WALES

To whom it may concern,

You are receiving this letter due to your organisation being named as a reasonable source of information that must be contacted as under Stage 1 (section 4.1.2) of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) (Consultation Requirements). Section 4.1.2 of the Consultation Requirements makes it the proponent's responsibility to ascertain, from reasonable sources of information such as your organisation, the names of Aboriginal people who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and / or places.

Austral Archaeology Pty Ltd (Austral) has been engaged by Allen Price and Scarratts Pty Ltd / Sealark Pty Ltd, to undertake an Aboriginal Cultural Heritage Assessment (ACHA) and an Aboriginal Cultural Heritage Management Plan (ACHMP) in regard to the West Culburra Development, Lot 5 DP 1065111 and Lot 6 DP 1065111, Culburra Road, Culburra Beach, New South Wales (NSW) [the Study Area]. The proposed ACHA is being undertaken to determine the impact the development will have on Aboriginal cultural material, as part of a Development Application under Part 4 of the *Environmental Planning and Assessment Act 1979*. The study area is situated within the Shoalhaven Local Government Area (LGA) and is located within the boundaries of the Jerrinja Local Aboriginal Land Council (JLALC).

Austral Archaeology will actively seek to involve stakeholders in decisions regarding Aboriginal cultural heritage issues arising from this project. Additional information will be made available to all registered Aboriginal stakeholders as the project progresses. The purpose of consultation is to assist the proposed applicant in the preparation of an Aboriginal Heritage Impact Permit and to assist the Director General of the Department of Premier and Cabinet (DPC) in his or her consideration and determination of the application. The project will be undertaken in accordance with the *National Parks and Wildlife Act 1974*.

In accordance with the consultation requirements, please note that the relevant client contact for this project is:

Matt Philpott Director Allen Price and Scarratts Pty Ltd PO Box 73 Nowra, NSW 2541 Phone: (02) 4221 6544 [Nowra] (02) 4233 1448 [Kiama] Email: mattphilpott@allenprice.com.au

ARCHAEOLOGY & HERITAGE SERVICES

WOLLONGONG

CANBERRA

1

SWAN HILL

All correspondence regarding provision of names and contact details of Aboriginal people who may hold cultural knowledge relevant to the project should be provided in writing to:

Taylor Foster Archaeologist Austral Archaeology Shop 1, 148 Tongarra Road Albion Park, NSW 2527 Phone: 0478 162 379 Email: TaylorF@australarch.com.au

Austral requests that your organisation supplies the requested information by 31 May 2022. Please note that under Section 4.1.6 of the Consultation Requirements, Austral is required to supply details of all registered Aboriginal stakeholders to Heritage NSW and JLALC.

Please do not hesitate to contact me for further information at the contact details provided below. Yours sincerely,

K. Elliott

OEH HD Heritage Mailbox <HERITAGEMailbox@environment.nsw.gov.au> From: Sent: Tuesday, 17 May 2022 8:52 AM Kayley Elliott To: Subject: Automated Response **Attachments:** image003.png; image004.png

Thank you for contacting Heritage NSW. We will respond to your email as soon as possible.

In the interim, please see the below information regarding some of our common enquiries, which may assist you.

Heritage Act 1977 – s139(4) Exceptions

Heritage NSW no longer accepts s139(4) applications as the new archaeological exceptions process is now live. Information on the new process, including how to selfassess your works may be found here s139(4)Exceptions - Self Assessment.

Heritage Management System (HMS) is now live

HMS is a new digital system for lodging Heritage Act applications and searching heritage information. Go to the Heritage NSW website for more information and to access the Heritage Management System

Applications and Section 170 notifications

If you have submitted an application under the Heritage Act 1977 or the National Parks and Wildlife Act 1974, or a section 170 notification, it will first be reviewed for completeness and then allocated to the appropriate assessment team or officer. An officer will contact you if any additional information is required. The completeness check is generally completed within 7-14 business days.

We aim to process applications or notifications within the timeframes below:

Application/Notification type	Timeframe
	(Commences once an application or notification is complete)
Planning Proposals	21 days
Section 140 Permits	
Section 4.55 Modifications	
Integrated Development	If advertised: 21 days following receipt of submissions, or
Applications	advice there were no submissions,
	or
	If not advertised: 40 days
Section 60 Application (fast	21 days
track)	
Section 60 Applications	40 days (or 60 days if advertised)
(standard/ major works)	
Section 90 Aboriginal Heritage	60 days
Impact Permit (AHIP)	
Section 170 notifications – local	14 days
heritage items	
Section 170 notifications – state	40 days
heritage/SHR items	
Section 170 registers and	As advised/ negotiated with an agency's single point of contact
heritage asset management	
strategies	

Nominations for listing under the Heritage Act 1977 (State Heritage Register)

A completed nomination form must accompany your application. The application form is available on our website (Nominate listing on the state heritage register). SHR Nominations are considered by the State Heritage Register Committee who will decide whether the nomination will proceed to the next stage of assessment.

Nominations for Aboriginal Place listings under the National Parks and Wildlife Act 1974

Nominations are allocated to the relevant team within 2 business days. An officer will contact you if any additional information is required. The Aboriginal Place proposal form is available on our website: Nominating an aboriginal place

Aboriginal Cultural Heritage (ACH) Conservation and Repatriation

Programs supported by Heritage NSW include the ACH Conservation and Repatriation of Aboriginal ancestors and objects. This work is managed by staff located across NSW. Enquiries into these programs are sent to the relevant team within 2 business days. Please send any enquiries to heritagemailbox@environment.nsw.gov.au and one of our staff will respond to you directly. Please advise us of any requests to modify our projects or timeframes to better accommodate your needs.

Please visit our website at <u>Heritage NSW</u> for further information.

Sincerely,

Customer Concierge Team.

For more information about the Tribunal's registers or to search the registers yourself and obtain copies of relevant register extracts, please visit our website.

Information on native title claims and freehold land can also be found on the Tribunal's website here: Native title claims and freehold land .

Please note: There may be a delay between a native title determination application being lodged in the Federal Court and its transfer to the Tribunal. As a result, some native title determination applications recently filed with the Federal Court may not appear on the Tribunal's databases.

The search results are based on analysis against external boundaries of applications only. Native title applications commonly contain exclusions clauses which remove areas from within the external boundary. To determine whether the areas described are in fact subject to claim, you need to refer to the "Area covered by claim" section of the relevant Register Extract or Schedule Extract and any maps attached.

Search results and the existence of native title

Please note that the enclosed information from the Register of Native Title Claims and/or the Schedule of Applications is **not** confirmation of the existence of native title in this area. This cannot be confirmed until the Federal Court makes a determination that native title does or does not exist in relation to the area. Such determinations are registered on the National Native Title Register.

The Tribunal accepts no liability for reliance placed on enclosed information

The enclosed information has been provided in good faith. Use of this information is at your sole risk. The National Native Title Tribunal makes no representation, either express or implied, as to the accuracy or suitability of the information enclosed for any particular purpose and accepts no liability for use of the information or reliance placed on it.

South East Local Land Services 13 Schofields Lane (PO Box 63) BERRY NSW 2535 Tel: 02 4464 6000 www.lls.nsw.gov.au/southeast 17 December 2021

To whom it may concern,

Catchment Management Authorities are listed in Section 4.1.2 (g) of the Aboriginal cultural heritage consultation requirements for proponents 2010, under Part 6, National Parks and Wildlife Act 1974 as a source of information to obtain the "names of Aboriginal people who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and/or places". We understand that with the loss of Catchment Management Authorities in NSW such requests are likely to be forwarded to Local Land Services.

South East Local Land Services is a partner with many Aboriginal communities in the region on natural resource management (NRM) projects. We are not, however, the primary source for contacting or managing contact lists for Aboriginal communities or persons that may inform or provide comment on planning issues. Currently we do not coordinate or administer any Aboriginal reference group for our region.

Please direct your enquiry to Heritage NSW via the central mailbox <u>heritagemailbox@environment.nsw.gov.au</u>.

Kind regards,

Rebecca Bradley Stakeholder and Investment Coordinator South East LLS PO Box 97 BRAIDWOOD NSW 2622

Dear Kayley,

Thank you for providing the attached notice.

NTSCORP requests that you register the Applicant for the South Coast People's native title application, on behalf of the South Coast People, as knowledge holders for this project and a party to be notified and involved throughout the assessment process.

The South Coast People are the registered native title claimants for this region and are contactable via their legal representatives Isobel Brinin and Sandy Chalmers at <u>information@ntscorp.com.au</u>. Please send all correspondence to this address **only**.

In relation to the project notified, please can you confirm if and when Aboriginal knowledge holders are intended to be involved in field surveys, test excavations or any form of cultural heritage monitoring. It is the Applicant's position that such work should be undertaken by people who are members of the South Coast People's native title application, as the relevant native title claimants and custodians of the cultural sites and artefacts in the area considered by this project.

Following confirmation of the above, the Applicant will provide nominations for Aboriginal knowledge holders to be engaged on behalf of the South Coast People.

Kind regards

Conor Wakefield | Law Graduate

Taylor Foster Archaeologist Austral Archaeology Shop 1, 148 Tongarra Road ALBION PARK NSW 2527

Dear Taylor,

Aboriginal Cultural Heritage Assessment – West Culburra Development, Culburra Road, Culburra Beach, NSW: request for list of potential Aboriginal stakeholders

We refer to your letter and email to this Office, dated 17 May 2022, requesting contact information for Aboriginal organisations, stakeholders and/or people who may have cultural knowledge relevant to the proposed West Culburra Development, Culburra Road, Culburra Beach, NSW (Lots 5 DP 1065111 and Lot 6 DP 1065111), as part of an Aboriginal Cultural Heritage Assessment (ACHA).

Under Section 170 of the *Aboriginal Land Rights Act* 1983 (NSW), the Office of the Registrar is required to maintain the Register of Aboriginal Owners (RAO) for New South Wales. A search of the RAO has shown that there are currently no Registered Aboriginal Owners in the project area.

The proposed development and study area falls within the boundaries of Jerrinja Local Aboriginal Land Council. We suggest you contact Jerrinja LALC (contact details provided below), as they may wish to participate or contribute.

Yours sincerely

Manche

Dear Taylor,

WRITTEN NOTIFICATION OF PROPOSAL AS REQUIRED UNDER DECCW ABORIGINAL CULTURAL HERITAGE CONSULTATION REQUIREMENTS FOR PROPONENTS 2010

Subject: West Culburra Development, Lot 5 DP 1065111 and Lot 6 DP 1065111, Culburra Road, Culburra Beach.

Thank you for your correspondence dated 17 May 2022 to Heritage NSW (Department of Premier and Cabinet) regarding the above project.

Attached is a list of known Aboriginal parties for the proposed development at **Shoalhaven** local Government Area that Heritage NSW considers likely to have an interest in the activity.

Please note this list is not necessarily an exhaustive list of all interested Aboriginal parties.

Receipt of this list does not remove the requirement of a proponent/ consultant to advertise in local print media and contact other bodies seeking interested Aboriginal parties, in accordance with the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (April 2010).

Under Section 4.1.6. of the Consultation Requirements, you must also provide a copy of the names of each Aboriginal person who registered an interest to the relevant Heritage NSW office and Local Aboriginal Land Council (LALC) within 28 days from the closing date for registering an interest.

Please note that the contact details in the list provided by Heritage NSW may be out of date as it relies on Aboriginal parties advising Heritage NSW when their details need changing. If individuals/companies undertaking consultation are aware that any groups contact details are out of date, or letters are returned unopened, please contact either the relevant stakeholder group (if you know their more current details) and/or Heritage NSW. AHIP applicants should make a note of any group they are unable to contact as part of their consultation record. If you have any questions about this advice, please email: <u>heritagemailbox@environment.nsw.gov.au</u> or contact (02) 9873 8500.

Yours sincerely

Barry Juntos

Hi Alfred,

Thank you for your email.

At this point in time project 22054 West Culburra is still in Stage 1.1 of consultation (ending tomorrow), so we are currently giving organisations the opportunity to register for consultation and asking that they provide contact information of Aboriginal Stakeholders who may be interested in consulting on the project.

We will send out a draft methodology for project 22054 West Culburra to all registered stakeholders as part of our Stage 3 consultation in the future.

If you have any contact information of Aboriginal Stakeholders for this project, could you please supply this information by Close of Business 31 May 2022?

Thank you.

Kind regards, Kayley Elliott Archaeologist BSc Geology

Good morning,

As a Registered Aboriginal Party (RAP), please find attached the documents containing the project information and methodology for the Aboriginal Cultural Heritage Assessment (ACHA) and Cultural Heritage Management Plan (CHMP) related to Culburra Road, Culburra Beach, NSW.

Please provide all comments and recommendations by close of business on Friday 22 July 2022.

If you have any issues or questions about the documents, please don't hesitate to contact Taylor Foster (Project Manager) on 0478 162 379.

Thank you for your participation.

Yours sincerely,

Please note: This email (including any/all attachments) is intended solely for the use of the named person/s. To whom it may concern,

Apologies for the email accompanying the Stage 1.2 letter for 22054 West Culburra containing the incorrect month for the closing date of registration.

The attached letter itself states the correct date for closure of registration, being Close of Business Wednesday 15 June 2022.

Apologies for the confusion. To clarify, Close of Business **Wednesday 15** *June* **2022** is when registration closes, as per the Stage 1.2 letter sent yesterday which I have also attached to this email.

Kind Regards,

Kayley Elliott Archaeologist BSc Geology

Dear Kayley

Please accept my registration of interests for this project at West Culburra at this latter date. It has been a week of significant substances in my local Illawarra aboriginal affairs.

For the project i offer my unique personage with skill sets in cultural heritages appreciations, interpretations and Principalled significance assessments, on a known standing wrt this cultural area specific relevances in narratives of scalar Nowree environs as contextual settings in the SouthCoast Regional lands advocacy importances.

I do not particularly seek engagement for a salvage operation, however i do wish to engage in the consideration of due diligences, methodological responses and any preliminary fieldwork or visitation.

Could you please respond eitherway with receipt and acceptance confirmations?

Regards garyC

Hi Kayley,

Thank you for informing us that **Austral Archaeology** will be involved in an Aboriginal Cultural Heritage Assessment at **West Culburra Development, at Culburra Road, Culburra Beach, New South Wales (NSW); Lot 5, DP 1065111 and Lot 6, DP 1065111** &, that you are inviting Aboriginal organisations to register, if they wish too be involved in the community consultation process.

As a senior Aboriginal person for the past 50yrs, I actively participate in the protection of the Aboriginal Cultural Heritage throughout the Sydney Basin, & particularly throughout Western Sydney, on behalf of Kamilaroi Yankuntjatjara Working Group I wish to provide to you my organisation's registration of interest.

I wish to be involved & participate in all levels of consultation/project involvement. I wish to attend all meetings, participate in available field work & receive a copy of the report.

I have attached a copy of Kamilaroi Yankuntjatjara Working group's Public Liability Insurance & Workers Compensation certificate. Our Rates - \$112.50 per hour, \$450 half day & \$900 full day (Exc. GST)

Our RAPS have up to 15yrs Cultural Heritage experience in – field work which involves manual excavation (digging), sieving, identifying artefacts, setting up transits, setting up equipment, packing equipment, site surveys & attending meetings.

Should you wish me to provide further information, please do not hesitate to contact me on 0434545982 or Stefeanie on 0451068480.

Kind Regards Phil Khan

Dear Kayley,

Thank you for providing the attached notice.

NTSCORP requests that you register the Applicant for the South Coast People's native title application, on behalf of the South Coast People, as knowledge holders for this project and a party to be notified and involved throughout the assessment process.

The South Coast People are the registered native title claimants for this region and are contactable via their legal representatives Isobel Brinin and Sandy Chalmers at <u>information@ntscorp.com.au</u>. Please send all correspondence to this address **only**.

In relation to the project notified, please can you confirm if and when Aboriginal knowledge holders are intended to be involved in field surveys, test excavations or any form of cultural heritage monitoring. It is the Applicant's position that such work should be undertaken by people who are members of the South Coast People's native title application, as the relevant native title claimants and custodians of the cultural sites and artefacts in the area considered by this project.

Following confirmation of the above, the Applicant will provide nominations for Aboriginal knowledge holders to be engaged on behalf of the South Coast People.

Kind regards,

Conor Wakefield | Law Graduate

Allen Price & Scarratts of 75 Plunkett Street Nowra, NSW 2541, has commissioned Austral Archaeology Pty Ltd (Austral) to undertake an Aboriginal Cultural Heritage Assessment (ACHA) and an Aboriginal Cultural Heritage Management Plan (ACHMP) in regard to the West Culburra mixed use subdivision plan at Culburra Road, (Lot 5 and Lot 6, DP1065111), Culburra Beach, NSW. On behalf of the proponent, Austral wishes to consult Aboriginal people to assist with a cultural heritage assessment which may result in an Aboriginal Heritage Impact Permit (AHIP) Consultation is required to assist the Director General of the Department of Premier and Cabinet (DPC) in their consideration of the application. Consultation will be in accordance with the DPC's Consultation Requirements 2010. Parties with cultural knowledge relevant to the significance of Aboriginal object(s) and/ or place(s) are invited to register their interest. More information about the project will be provided after registration.

For more information please contact:

Registration closes 17/06/2022.

JOURNALIST - Far South Coast

We have a rare opportunity for a full-time journalist to join the Australian Community Media team on the Far South Coast.

You will need to have good news sense and general knowledge, plus a strong community focus. You will collaborate with other journalists, the sales department and other ACM colleagues to implement editorial initiatives that will reaffirm the dominant position of our mastheads in their respective markets.

This position would suit an experienced journalist, or someone with relevant tertiary qualifications looking to make a mark in the industry. This is an extremely fast-paced and constantly changing environment so the successful applicant will need to be energetic, well presented and prepared to learn new things every day.

We are looking for a person with the ability to write cleanly, take good photos and have a knowledge of social media with a genuine interest in the community. Drivers licence is a must.

Australian Community Media's hundreds of newspapers and websites in rural, regional and suburban communities play a vital role in delivering quality journalism and information in print and online, and connecting advertisers to . our audiences.

Our evolving business is introducing new technologies and doing things differently to ensure our trusted mastheads meet the changing needs of both audiences and advertisers

If you enjoy a dynamic working environment you will thrive in our collaborative team culture, which is helping ACM build a stronger, sustainable and modern media network of newspapers and websites serving regional, rural and suburban Australia. Apply online now!

https://careers.austcommunitymedia.com .au/jobdetails?ajid=WYXW7

Disclaimer: Australian Community Media does not accept unsolicited agency resumes. ACM is not responsible for any fees related to unsolicited resumes.

Is your business missing? We can fix that! Call us on 4421 9100 to get your business in front of new potential customers.

RE: STAGE 2: PROJECT INFORMATION FOR WEST CULBURRA ABORIGINAL CULTURAL HERITAGE ASSESSMENT & ABORIGINAL CULTURAL HERITAGE MANAGEMENT PLAN, CULBURRA ROAD, CULBURRA BEACH, NEW SOUTH WALES

To whom it may concern,

You are receiving this letter as a registered Aboriginal party (RAP) for the West Culburra project.

The following information is being provided to comply with Stage 2 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) [the Consultation Requirements]. This letter relates explicitly to sections 4.2.1 to 4.2.4 of the Consultation Requirements.

PROJECT DETAILS

Allen Price & Scarratts Pty Ltd is creating a mixed-use development at Culburra Road, Culburra Beach, New South Wales 2540 (Lots 5 & 6, DP 1065111), within the Shoalhaven Local Government Area (Figure 1). The proposed development will include creating a residential area, an industrial area, integrated housing lots and commercial spaces. The plan also features open space public reserves, biofiltration locations, water quality ponds and new road infrastructure to service the areas. The development areas will maintain the existing woodland reserve between the construction zones and the coastline.

The study area has been previously assessed as part of an Aboriginal Cultural Heritage Assessment Report (ACHAR) prepared in relation to a Planning Proposal for the area (RPS Australia East Pty Ltd 2019). A more detailed assessment of the study area was completed by Kamminga (2020) as part of the Land & Environment Court proceedings. The outcome of this assessment resulted in the Land & Environment Court placing multiple conditions regarding future developments in the area in regard to Aboriginal Cultural Heritage Sites.

Based upon these requirements, Austral Archaeology Pty Ltd (Austral) has been engaged by Allen Price & Scarratts Pty Ltd to conduct an Aboriginal Cultural Heritage Assessment (ACHA); this process will result in an application for an Aboriginal Heritage Impact Permit (AHIP) being made. Austral has also been engaged to prepare an Aboriginal Cultural Heritage Management Plan (ACHMP) as part of the ongoing management of the potential impacts to Aboriginal Cultural Heritage sites within the area.

This letter presents the proposed project information and initiates arrangements for the dissemination of further details to RAPs during the assessment process.

The location of the study area is outlined in Figure 1 and Figure 2.

IMPACT ASSESSMENT PROCESS

The following impact assessment process will be completed in accordance with the following guidelines:

- Consultation Requirements.
- Code of Practice for Archaeological Investigations of Aboriginal Objects in NSW (Department of Environment, Climate Change and Water 2010) (the Code).
- *Guide to Investigating, Assessing and Reporting on Aboriginal Cultural Heritage in NSW* (Office of Environment and Heritage 2011).

ARCHAEOLOGY & HERITAGE SERVICES						
SYDNEY	WOLLONGONG	SWAN HILL	CANBERRA	1		
	info@australarch.com	n.au / www.australarchaeology.com	m.au			

BACKGROUND RESEARCH

In addition to contacting the relevant Aboriginal and non-Aboriginal stakeholders, background research will include searches of public statutory and non-statutory heritage databases and research into relevant archives as an essential aid to determining the significance of the study area to local Aboriginal people.

The following database and register searches will be undertaken:

- A search of the Aboriginal Heritage Information Management System (AHIMS) database. This database lists known sites of archaeological and cultural significance to Aboriginal people. This will confirm the nature of any Aboriginal cultural values which may be present within the study area. This search will also highlight sites and places of significance in the immediate vicinity. This search may also provide previously produced reports or studies of relevance to this study.
- A search for items or places of Aboriginal significance on non-statutory heritage databases. These include the Register of the National Estate and the National Trust.
- A search of the Local Environmental Plan for Aboriginal heritage places or issues.
- A search for items or places of Aboriginal significance on statutory heritage databases. These include the National Heritage List and the State Heritage Register.

In addition to these database searches, research into the ethnographic, environmental, archaeological and Aboriginal historical context will also be undertaken. The results of this research will assist in determining the potential for Aboriginal archaeological and cultural material and places to be located within the study area.

The background research will need to be collated and précised into a succinct yet thorough literature review. This written work will form a vital part of subsequent methodological development and production of the final cultural heritage assessment report.

The ACHA and ACHMP prepared by Austral will build upon prior research within and adjacent to the study area conducted by Hughes (1983), (Kuskie 2012), (RPS Australia East Pty Ltd 2019) and (Kamminga 2020) and will consider the findings of previous reports within the study area and locality. The preparation of this ACHA will inform the preparation of the ACHMP, both of which will serve as standalone reports.

CONSULTATION WITH ABORIGINAL STAKEHOLDERS

The Aboriginal people of Australia are part of the oldest and continuous-living cultures in human history. Aboriginal people's cultural heritage is recognised and valued as a unique and essential component of the identity of all Australian people.

Aboriginal cultural heritage provides the essential links between the past and the present – it is a crucial part of Aboriginal people's cultural identity, connection and sense of belonging to Country.

The objective of community consultation is to ensure Aboriginal people have the opportunity to improve assessment outcomes by:

- Providing relevant information about the cultural significance and values of the Aboriginal objects and/or place.
- Influencing the design of the methodology to assess the cultural and scientific significance of Aboriginal objects and places.
- Actively contributing to the development of cultural heritage management options and recommendations for any Aboriginal objects and/or places within the proposed project area.
- Providing feedback and commenting on draft assessment reports before the proponent submits them to Heritage NSW.

This information pack forms part of the ongoing consultation with Aboriginal stakeholders, being Stage 2 of the Consultation Requirements, which requires consultants to present information about the proposed project to stakeholders. This will also be accompanied by a Stage 3 methodology document, which will thoroughly detail the proposed testing methodology.

Based on this project's size and complexity, information about the project will be disseminated in writing only.

INVESTIGATION OF ABORIGINAL OBJECTS AND / OR PLACES

The field survey will be conducted within the coming months and will involve Aboriginal Stakeholder(s). The archaeological survey of the study area will be undertaken in accordance with requirements 5 to 10 of the Code to identify any previously unknown Aboriginal objects, sites or places.

An archaeological testing program will be completed in accordance with requirements 14 to 17 of the Code under the guidance of an AHIP; this program will aim to collect information about the nature and extent of sub-surface Aboriginal objects. The testing program will contribute to an understanding of site characteristics and local and regional prehistory that can be used to inform mitigation measures for the project.

Further information on the methodology to be used for the archaeological survey and test excavation program will be presented as part of the Stage 3 documentation.

REPORTING

Austral will produce an ACHA that will include but not be limited to:

- Introduction
- Planning Framework
- Aboriginal Background
- Site Analysis
- Maps and Site Plans etc.
- Aboriginal Stakeholder Consultation
- Assessment of Archaeological Potential
- Archaeological Testing Analysis and Results
- Impact Assessment
- Conclusions and Management Recommendations

As part of Stage 4 of the Consultation Requirements, Aboriginal stakeholders will be provided with the draft ACHA for review and comment. Any comments and responses received by Austral or the proponent will be documented in the final ACHA. Austral will respond to all comments received and will outline how these have been considered and/or implemented as part of the final ACHA (DECCW 2010, p.6).

PROJECT SCHEDULE

To meet these objectives Heritage NSW has developed four stages of consultation which must be met for each cultural heritage assessment. There are several mandatory timeframes associated with the Consultation Requirements; these are summarised in Table 1 and Table 2.

Table 1Statutory timeframes for consultation.

Stage	Timeframe
Stage 1: Notification of project proposal and registration of interest	14 days
Stage 2: Presentation of information about the proposed project -	
Stage 3: Gathering information about cultural significance.	28 days
Stage 4: Review of the draft cultural heritage assessment report.	28 days

Table 2Project milestones, estimated completion dates and status.

Milestone	Statutory Timeframes (Days)	Completion dates	Status
Background research - 25/07/2022 In Progress			In Progress
Aboriginal consultation			

Milestone	Statutory Timeframes (Days)	Completion dates	Status
Stage 1 - Notification of project proposal and registration of interest	14	17/06/2022	Complete
Archaeological Survey	-	TBD	To be Completed
Stage 2 - Presentation of information about the proposed project	28	17/07/2022	In Process
Stage 3 - Gathering information about cultural significance	28	17/07/2022	In Process
ACHAR draft report	-	Week 9-12	To be Completed
Stage 4 - Review of ACHAR by stakeholders	28	TBD	To be Completed
ACHAR finalisation	-	TBD	To be Completed
Approval of AHIP to test			
Archaeological testing	-	TBD	To be Completed
Revised ACHAR draft and draft ACHMP			
Stage 4 - Review of ACHAR and draft by stakeholders			
Approval of AHIP to destroy	60	Post-Development Consent	To be Completed

ROLES, FUNCTIONS AND RESPONSIBILITIES

Section 5 of the Consultation Requirements outlines the roles and responsibilities of the parties that are typically involved in the consultation process. The roles, functions and responsibilities for this project are summarised in **Table 3**.

Table 3 Roles, responsibilities and functions of parties involved in the project.

Party	Roles, responsibilities and functions
RAPs	To provide cultural information and feedback on draft methodologies and the ACHA. To participate in meetings and workshops, and fieldwork, when invited.
Austral, on behalf of the proponent	Will consult with RAPs by supplying suitable project information and providing the opportunity for RAPs to provide input into the heritage management process.

As per the Consultation Requirements, Section 3.4 on page 9 states that "[c]onsultation should not be confused with employment". In line with this, it is to be noted that the proponent is not obliged to employ any registered stakeholders for the fieldwork component of this project. However, all RAPs will be fully consulted as per the guidelines.

Table 4 outlines the feedback and input process offered to Aboriginal people for each stage of the consultation process.

Table 4Feedback and input process for stages of the consultation process to be
completed.

Stage	Expected feedback
2	Feedback on the project proposal including nature, scope and methodology. Raise any concerns about cultural perspectives or assessment requirements.
3	Contribute to culturally appropriate information-gathering and the research methodology. Provide information that will enable the cultural significance of

Stage	Expected feedback
	Aboriginal objects and/or places within the proposed project area. Have input into the development of any cultural heritage management options.
4	Provide feedback on any aspect of the draft ACHA report.

Should you have any questions or queries regarding the design or methods of construction relating to these works, contact information for the proponent is listed below:

Matt Philpott Director Allen Price & Scarratts Pty Ltd PO Box 73 Nowra NSW 2541 Phone: (02) 4221 6544 [Nowra] (02) 4233 1448 [Kiama]

Hi Carmen,

Guntawang Aboriginal Resources Inc would like to express an interest in the ACHA of both stages 2 and 3 of West Culburra.

Guntawang CEO and Sites Officers are Claimants of the South Coast People Native Title Claim. This land forms part of our song lines.

Guntawang has experienced site officers who have years of experience in identifying Aboriginal artefacts on sites work for archologists of similar sites.

Our preferred communication would be via email <u>wenlissa01@hotmail.com</u> and telephone (please see the details below)

Guntawang would like to be involved in the attendance of meetings and fieldwork we are also willing to view all documentation and provide feedback. If we are included in the project.

We look forward to working with you.

Warm regards

Wendy Morgan CEO GARI 0414 964 657

APPENDIX A7 - STAGE 3: GATHERING INFORMATION ABOUT CULTURAL SIGNIFICANCE

Reference: 22054 24 June 2022

Dear Ronald Carberry,

RE: STAGE 3: WEST CULBURRA ABORIGINAL CULTURAL HERITAGE ASSESSMENT & ABORIGINAL CULTURAL HERITAGE MANAGEMENT PLAN, CULBURRA ROAD, CULBURRA BEACH, NEW SOUTH WALES

You are receiving this letter as a registered Aboriginal party (RAP) for the West Culburra project.

The following information is being provided to comply with Stage 3 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) [the Consultation Requirements]. This letter relates explicitly to sections 4.3.1 to 4.3.7 of the Consultation Requirements.

The purpose of this letter is to present the proposed methodology to the RAPs for the preparation of an Aboriginal Cultural Heritage Assessment (ACHA) for the project. You are also requested to supply any cultural information you wish to provide that can assist in the identification of Aboriginal objects or places as part of the assessment process. In accordance with Section 4.3.2 of the Consultation Requirements, RAPs are provided with the opportunity to review and provide feedback on the proposed methodology outlined in this letter. Please supply this feedback to:

Taylor Foster Archaeologist Austral Archaeology Shop 1, 148 Tongarra Road Albion Park NSW 2527

Please provide your feedback, including additional protocols that you wish to be adopted into the information gathering process and assessment methodology by **5pm on Friday 22 July 2022.**

1. PRELIMINARY ASSESSMENT

Austral has undertaken a review of documentary sources to understand the Aboriginal heritage values that are known to occur within the study area.

BACKGROUND

An extensive search of Heritage NSW's Aboriginal Heritage Information Management System (AHIMS) database was conducted on 08/06/2022 (Client service ID: 689664). The search identified 113 Aboriginal archaeological sites within a 14 by 15-kilometre search area, centred on the proposed study area (Table 1).

ARCHAEOLOGY & HERITAGE SERVICES

Halloran Isolated Find 03 52-5-0900	Artefact	Within study area
Curleys Bay 52-5-0057	Shell, Artefact	Within <100 m of northern boundary
Culburra 13; Greenwell point 52-5-0182	Shell, Artefact	Within study area
Culburra 14; Greenwell Point 52-5-0183	Shell, Artefact	Within study area
Culburra 15; Greenwell Point 52-5-0184	Shell, Artefact	Within 200 m of study area
Shelly Point Campsite 52-5-0114	Artefact	Within 200 m of study area
Culburra 16; Greenwell Point 52-5-0185	Shell, Artefact	Within approximately 200 m of study area
West Culburra 4/B 52-5-0651	Artefact	Within study area
West Culburra 4/A 52-5-0650	Artefact	Within study area
West Culburra 3/A 52-5-0649	Artefact	Within study area

PREDICTIVE STATEMENTS

Based upon the AHIMS search results and a preliminary review of ethnographic, soils, geology, landform, disturbance and resource information pertinent to the study area, Austral has prepared a series of site prediction statements that have been used to inform the project methodology, these are outlined in Table 3.

Table 3Aboriginal site prediction statements.

Site type	Predictive statements
Aboriginal ceremony and dreaming sites	There is potential for these sites to occur in the study area as they have been previously recorded in this locality. Can only be identified by Aboriginal people through consultation.
Aboriginal places	While there are presently no declared Aboriginal Places within the study area, there may be potential for them to occur.
Artefact sites	There is potential for these sites to occur in the study area as they have been previously recorded in this locality.
Axe grinding grooves	This site type has been previously recorded in this locality, and as such there may be potential for these sites to occur if there are areas of exposed sandstone or boulders.
Burials	Potential to be present due to the soft sandy sediments of the study area.
Modified trees	As much of the study area is forested there is potential for modified trees to occur.

Site type	Predictive statements
Potential archaeological deposits (PADs)	As there have been a number of sites recorded within the study area and the broader area, there is potential for these sites to occur.
Rock Shelters with art and/or deposit	There may be potential for these sites to occur if sandstone outcrops are present within the study area.
Shell middens	Midden sites have been previously recorded within the study area and surrounds. As such, there is potential for these sites to occur within the study area.
Stone quarries	This site type has not been previously recorded within the study area. However, there may be potential for them to occur if there are areas of exposed rock outcrops within the study area.

2. ASSESSMENT METHODOLOGY

The following section outlined the assessment methodology to be employed in the preparation of the ACHA.

SURVEY METHODOLOGY

An archaeological survey will be conducted in the coming months with site officer(s) in attendance.

The survey will conform to requirements 5 to 10 of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales (CoP)* (DECCW 2010). The method employed during the survey will be aimed at recording all (or a representative sample of all) evidence of Aboriginal land use that are visible on the surface. An assessment of the likelihood of material traces of Aboriginal land use being present under the ground surface (potential archaeological deposits) will also be completed. The survey will be completed in accordance with a sampling strategy that will ensure that all landforms that may be impacted by the project will be inspected.

Recording during the survey will consist of both photographic and written recording techniques. Representative photographs of survey units and landforms will be taken, all photographs will include a graded metric scale. Where Aboriginal objects are identified during the survey, their diagnostic attributes will be recorded, and each object will be photographed (as per requirements 6 and 7 of the *CoP*). The survey will attempt to relocate AHIMS Sites # 52-5-0186, 52-5-0900, 52-5-0182, 52-5-0183, 52-5-0651, 52-5-0650 NS 52-5-0649. A condition assessment of this/these sites will be undertaken along with a revised recording of the material that is present.

Survey units will be inspected using pedestrian transects following the methodology set out in Burke and Smith (2004, pp.74–80). The survey will document the conditions present to assess the effectiveness of the survey. The following aspects of the survey will be recorded:

- Visibility and exposure for each survey unit.
- Landform and general soil location for each survey unit.
- Land surface and vegetation conditions encountered during the survey.
- Survey coverage in accordance with Requirement 9 of the CoP.
- Where Aboriginal objects are identified, the spatial extent of direct evidence and the physical boundaries of each site will be determined.
- The extent of disturbances and an assessment of the integrity of known or likely Aboriginal sites.

All survey data will be collected using Global Positioning System (GPS) enabled devices and the Map Grid of Australia (94) coordinate system.

TEST EXCAVATION METHODOLOGY

To fully assess the nature and extent of the archaeological deposit, Austral will develop a detailed archaeological testing methodology as part of the ACHA. This will then be used to support an AHIP to test.

3. CONSULTATION

As part of Stage 3 of the Consultation Requirements, Aboriginal stakeholders are to be provided with a 28 day period to have the opportunity to review and provide feedback on the proposed methodology.

As a registered stakeholder, we ask that you review the above methodology and provide feedback regarding:

- Any known Aboriginal objects or areas of cultural significance that are present within the study area.
- Any information regarding nearby places of cultural significance. This includes places of social, spiritual and cultural value.
- Any culturally relevant information that may affect the archaeological interpretation of the site.
- Any protocols that you wish to be implemented or changed regarding the excavation strategy.
- Any protocols that you wish to be implemented or changed regarding the collection and reburial or conservation of any identified cultural heritage.
- Any management recommendations, such as ways to avoid or mitigate harm to the Aboriginal cultural heritage on site.

The information provided will be used to understand the context and values of Aboriginal objects and / or places located within the study area. The information will be used as the basis of assessment for heritage values and to better inform the archaeological assessment of significance

4. CULTURALLY SENSITIVE INFORMATION

Austral would like to take this opportunity to invite RAPs to provide culturally appropriate information. All cultural information that is provided as part of the consultation process will be recorded in the consultation log and will be discussed in the ACHA. RAPs must advise Austral if the information they are providing is to be considered confidential. When providing this information, RAPs must detail the nature of the sensitivity and how this knowledge is to be restricted. Based on this information, Austral will formulate a methodology to record this information that is consistent with the values communicated. Where culturally sensitive information has been disclosed, the ACHA will identify this on the front cover. Alternatively, the ACHA may be finalised in a restricted and unrestricted format for private and public dissemination. All documentation and recordings will be stored securely.

5. **REPORTING**

Austral will complete an ACHA that includes the results of the Aboriginal community consultation undertaken. The ACHA will consist of:

- Introduction
- Planning Framework
- Aboriginal Background
- Site Analysis
- Maps and Site Plans etc.
- Aboriginal Stakeholder Consultation including all submissions received from RAPs and responses to the issues raised.
- Assessment of Archaeological Potential
- Archaeological Testing Methodology
- Conclusions and Management Recommendations

Please take the time to read this letter and feel free to contact me on the number provided below should you wish to raise any concerns or if you require additional information. Please do not hesitate to contact **Taylor Foster** (Project Manager) on 0478 162 379 if you wish to discuss any aspect of this submission.

Yours sincerely,

K Elliott

Hi Taylor,

We would like to wish you a happy new year.

From our reading of the DRAFT ACHA for West Culburra. We would like to make a statement regarding the significance of the 2 ceremonial sites and Burial sites in the project area.

Guntawang would like to make a recommendation that any subdivision that is proposed for this location that no construction be built over the significant sites.

Non Aboriginal People would not develop over a cemetery without transferring the remains to another cemetery so we don't understand how or what converging of sites means?

Are you referring to the moving these sites into one area?

Can you please provide a clearer understanding of how many sites are going to be destroyed by converging?

Has there been identification of women and men sites in this project area due to the ceremonial ring?

We look forward to being included in this project.

Warm regards

Wendy Morgan CEO GARI 0414 964 657 Wenlissa01@hotmail.com

Hi Gary,

Good afternoon,

Following up on our phone call today, the project information meeting for the West Culburra project will be held on Thursday, the 19th of January, 2023, at 11:30am. The meeting location will be the West Culburra site, on Regmoore Close near Culburra Road. If you are interested in attending the meeting, could you please send confirmation as soon as possible to Taylor on 0478 162 379 or @ taylorf@australarch.com.au.

Thank you, Crystal.

Good morning,

Please see attached an updated summary of the West Culburra project information meeting that

took place last Thursday, 19th January. I have updated the initial agenda to include the meeting participants, an accurate schedule of events and the meeting minutes.

If you have any further feedback please don't hesitate to get in touch with me on the details below.

Kind regards,

Taylor Foster Archaeologist BA Archaeology (HONS) and English

I hope you're well. This is just a quick follow-up to a missed phone call from this afternoon.

I am sending this on behalf of Alex Beben (Director, Austral Archaeology). We were hoping to schedule a meeting about the cultural heritage management of the West Culburra ACHA site (Austral Ref: 22054). Are you available for a meeting on 31 January 2024? Currently we were looking at commencing at around 10:30am, pending everyone's availabilities (location to be confirmed).

Please let me know if you have any questions or concerns.

I acknowledge the traditional custodians of the land on which we work and live, and pay respects to Elders past and present.

Please note: This email (including any/all attachments) is intended solely for the use of the named person/s. You must not rely upon, disclose, or copy any part of this email (including any/all attachments) if you are not the intended recipient/s. It may contain confidential and/or legally privileged information. If you receive this email in error, please delete it from your system and notify the sender.

Hi Gary,

Good to talk to you earlier. As discussed, there should be video conferencing capabilities at the bowling club tomorrow. Our current plan is to send through an invitation once we have everything set-up.

I have spoken to Alex and he assures me there will do his best to get an agenda out before the meeting tomorrow.

Hi Gary,

Good morning. My apologies, I haven't heard from Alex as yet and I am just about to leave the office and wont be able to respond until just before the meeting, but I wanted to follow-up on yesterday. As I understand it, our itinerary for today is:

- 1. Update regarding the study area.
- 2. Discussion of excavation results.
- 3. Discussion on new sites being registered after the excavation.
- 4. Heritage management discussion and workshop.

If I don't receive an email beforehand, I will send a copy of the video conference link once we have the system set up.

Kind regards,

APPENDIX A12 - MEETING MINUTES

Reference: 22054 13 August 2024

1

To whom it may concern,

RE: MEETING MINUTES -ABORIGINAL CULTURAL HERITAGE STAKEHOLDER MEETING FOR WEST CULBURRA, CULBURRA BEACH, NEW SOUTH WALES

This document is a summary of discussions pertaining to the cultural heritage stakeholder meeting for the West Culburra Aboriginal Cultural Heritage Assessment (ACHA) and Aboriginal Cultural Heritage Management Plan (ACHMP) project undertaken on 31 January 2024.

1.1 WELCOME

This meeting aims to:

- Provide stakeholders with an update on the project;
- Flesh out strategies for management of cultural values within the study area; and
- Facilitate installation of clear, strong, and robust management strategies.

Table 1Meeting attendance.

Group	Representative	Medium
Registered Stakeholders		
Guntawang Aboriginal Resources Incorporated	Wendy Morgan	Online
Individual	Gary Caines	In Person
Jerrinja Tribe	Ronald Carberry	In Person
Thoorga Nura	Adrian Connelly	In Person
Facilitators		
Austral Archaeology Pty Ltd	Alexander Beben	In Person
Austral Archaeology Pty Ltd	Jake Allen	In Person
Sealark Pty Ltd	Matt Phillpot	In Person

2.1 PROJECT INTODUCTION AND UPDATE

- The proposed works involve subdivision and construction of a mixed-use development: residential, commercial, and industrial.
 - This has been supported by the following reports:
 - ACHMP, in draft.
 - Anthropological Assessment, completed.
 - Pre-testing ACHA, completed.
 - Post-testing ACHA, in draft.
 - This project is on a State-Significant Development (SSD) pathway, approved 2021.
- Sealark acknowledges that Crown Lands may need to have a say in management approvals.
- The conditions of consent for this development are established by the Land and Environment Court.
 - Among these is the ACHMP.
- Following finalisation of the ACHA and ACHMP, the next steps involve going to Shoalhaven City Council for Development Application (DA) approvals.
 - Sealark intends to lodge DA by end of 2024.
 - Sealark has confirmed that this DA, and the wider project as a whole, is entirely within the current study area.
 - Remaining Halloran Trust lands managed by Sealark are intended to be classified as a 1000-hecatre biodiversity stewardship site.
 - This includes 150-acres intended to be classified as a part of the Jervis Bay National Park.
 - Sealark has confirmed that they intend to classify a portion of the study as a foreshore reserve.
 - Jerrinja Tribe notes that they are pushing for due diligence to be implemented under the DA process.
 - This involves the establishment of a Shoalhaven regional cultural heritage map.

3.1 ACHA TESTING PROGRAM RESULTS

- A testing program undertaken between 7 August and 21 September 2023 involved testing of a 50-metre grid across the study area.
 - Excavated units were 500 millimetres × 500 millimetres.
 - Additional testing was undertaken to establish the extents of midden sites in proximity to the study area. This testing consisted involved excavation via auger, as well as the excavation of traditional testing pits.
 - Testing assessed all landforms within the study area.
- This program identified 17 total artefacts.
 - Overall site density was found to be much lower than anticipated.
 - Average density calculated at <1 artefact per square metre.
 - Highest pit density calculated between 1 and 2 artefacts per square metre.
 - Austral confirmed that these densities were not enough to justify further archaeological assessment of the study area.
 - Austral confirmed that no pits yielded enough potential artefacts to trigger pit expansion.
 - These 17 artefacts have been classified into 7 AHIMS sites. Austral notes that there were 7 AHIMS sites in the immediate vicinity of the study area prior to testing program, for a total of 14 listed sites.
 - As of 31 January 2024, the registration of these sites on AHIMS has not yet been finalised.
 - New sites consist of 3 artefact scatters and 4 isolated finds, all originating subsurface.
- Midden testing identified that the highest density midden sites are located outside the study area.
 - From the testing data, Austral concludes that flooding events and encroaching water levels are likely to have eroded or compressed midden materials, or accelerated the natural erosion of these sites.
 - Determined due to the shallow stratigraphy observed in proximity to Curley's Bay.
 - Austral notes that the units contained low-lying clays under a very-dark humic layer.
 - Jerrinja Tribe notes that the shoreline has come much closer to the midden sites over the last few decades.
 - Theorga Nura notes that additional cultural materials may be present within the study area that have not been uncovered, either by testing or erosion.
 - In response to concerns raised by Gary Caines, individual, Austral confirmed that the Aboriginal Heritage Impact Permit (AHIP) to test the middens was obtained in order to allow as in-depth an analysis of these sites as possible. Austral is not aware of a way for the assessment of these features to have been more robust than the result achieved.

- Sealark confirmed that no European heritage values have been identified within the study area, and no European heritage management is planned.
 - Austral confirmed that their engagement is exclusively for the assessment and management of Aboriginal heritage values.
 - Gary Caines, individual, disagrees with this; states that cross-cultural and European heritage values should be considered.
- Sealark notes that the conditions of consent require an 18-month water quality assessment.
 - As of 31 January 2024, this assessment is ongoing.
- In response to concerns raised by Gary Caines, individual, Austral notes that the pre- and posttesting ACHAs focus on tangible heritage values. Intangible cultural values are assessed further in the Anthropological Assessment.
 - Austral confirms that the Anthropological Assessment will be attached as an appendix to the post-testing ACHA.
 - Austral and Sealark note that the Anthropological Assessment was not attached to the pre-testing ACHA in order to ensure that there was enough time for the assessment to be done properly.
- Jerrinja Tribe raised concerns of the impact of the development on the surrounding middens.
 - Austral notes that only one registered midden (AHIMS #52-5-1077) is within the development footprint.
 - Austral notes that the testing of this site found that the midden was confined to the existing vehicle access track; notes that the site may not be of Aboriginal origin. Austral acknowledges that there is evidence for and against this being a cultural midden.
 - Theorga Nura notes that, due to distance from the foreshore, AHIMS #52-5-1077 may not be *in situ*.
 - Jerringa Tribe disagrees with these conclusions, noting the condition of the shell materials and the proximity of the midden to creek lines associated with Curley's Bay.
 - Austral reiterates that the classification of the midden as cultural or non-cultural is the jurisdiction of the local Aboriginal community, not archaeologists.
 - Jerrinja Tribe requests the excavation, preservation, and interpretive signposting of AHIMS #52-5-1077.
 - Austral notes that this is more within the scope of cultural excavation, not scientific, and therefore no archaeologist is be required to be present.
- Jerrinja Tribe note that, historically, traditional campsites in this area were along elevated landforms.
 - Jerrinja Tribe elaborates that the location of the midden sites relative to the ridgeline confirm this.

- Gary Caines, individual, raises that site management should consider both intangible and intangible values; voiced concerns that the development may lead to deculturalisation of the local Aboriginal community. Concludes that portions of the study area should be listed as an Aboriginal Place.
 - Sealark recommends the foreshore, citing location of middens.
 - Jerrinja Tribe supports this, raises this as a replacement to the original classification as a conservation zone.
 - Austral notes that registration of a site as an Aboriginal Place on AHIMS is usually done either in conjunction with the community, or by the community themselves; offers to facilitate the registration.
 - Austral notes that, given the findings of the Anthropological Assessment, the registration of the foreshore as an Aboriginal Place should be fairly straightforward.
- Jerrinja Tribe states that the best preservation strategy is education; requests installation of interpretive signage.
- In response to comments from Jerrinja Tribe and Thoorga Nura, Sealark confirms the ongoing survey of the study area as a viable means of keeping community discussions and management plans as current as practicable.
- Jerrinja Tribe requests ownership or stewardship of a portion of the 1000-acres of Halloran Trust lands, with the goal of regenerating the lands and establishing sustainable site management informed by 60,000+ years of cultural history.
 - Gary Caines, individual, notes the outcomes that this project may have on the Aboriginal Owners Research Project (AORP); cites statewide ramifications.
 - Sealark notes that, as a component of this project, they are undertaking a sustainability strategy with a focus on environmental sustainability.
 - This currently includes installation of water tanks and solar panels, as well as an affordable housing component (10% of residential housing to go to a community housing provider).
 - Sealark notes that the sustainability strategy could be amended to include a connection to country, including facilitating opportunities for indigenous employment.
- Gary Caines, individual, raised concerns over a lack of passive transit opportunities between Culburra Beach and Callala.
 - Sealark notes that some of this land is intended to form part of the 150-acres to the Jervis Bay National Park.
 - Jerrinja Tribe disagrees with the lands being classified as national parklands; raised alternative strategy that the land be given to local communities.
 - Sealark notes that the plan to classify the lands for national parks was part of Halloran's original plan, and that changes to this plan will require Halloran Trust board approval.
 - Sealark notes that land intended to be classified for offset is freehold.
 - Gary Caines, individual, requested that this be amended to include tenure; acknowledged that compromise would likely be necessary with regard to this.

- Guntawang Aboriginal Resources Incorporated voiced support for Group conclusions and management recommendations listed prior to this point.
 - "...People belong to the land, the land doesn't belong to the people." Wendy Morgan, Guntawang Aboriginal Resources Incorporated.

4.1 ANTHROPOLOGICAL ASSESSMENT CONCLUSIONS

- The assessment recommends that a regional cultural heritage management strategy, including a cultural landscape map and possible rezonings, be developed.
 - Jerrinja Tribe requests that a preliminary version of this map be completed for Sealarkmanaged lands.
 - Sealark confirms this should be achievable.
 - Group agrees with recommendation.
- The assessment recommends that future development favours land that is already disturbed.
 - Group agrees with recommendation.
- The assessment recommends that Aboriginal peoples are involved in the development of management plans for Crown Land.
 - Sealark provided vegetation management and management of midden sites as potential opportunities for this recommendation to be implemented.
 - Gary Caines, individual, requested further information on whether a jetty or moorings along Curley's Bay had been considered.
 - Sealark confirmed that these, as well as a raised walkway, had been considered as a part of the development; however, the Land and Environment court had vetoed these as components of the concept plan.
 - Jerrinja Tribe requested further information on what methods were planned to police potential residents accessing the foreshore and bay.
 - Sealark suggests installation of vehicle-proof fencing.
 - Jerrinja Tribe disagrees, states educating residents would be more effective. Suggests pamphlets be provided at sale of residential blocks detailing the Aboriginal cultural history of the site and surrounding area.
- The assessment recommends that Aboriginal peoples be supported to revisit midden sites across the local area.
 - Group agrees with recommendation.
- The assessment recommends that cultural interpretive signage be developed and installed in public spaces.
 - Group agrees with recommendation.
- The assessment recommends that built infrastructure and allocated names reflect Aboriginal cultural concepts.
 - Sealark suggests allocating names (i.e. street names) reflecting local Aboriginal concepts.
 - Jerrinja Tribe agrees with proposed action.
 - Gary Caines, individual, suggested dual naming of the estate through the Geographic Names Board.
 - Sealark notes that a final name for the development has yet to be confirmed, and that 'West Culburra' is only the interim project name during this development phase.
 - Group agrees with recommendation.

- The assessment recommends Aboriginal peoples be employed to assist in management of Sealark properties throughout the region, including: weed eradication, seed collection and propagation, etc.).
 - Group agrees with recommendation.
 - Jerrinja Tribe reiterates need for education, and for facilitating understanding.

5.1 ONGOING MANAGEMENT STRATEGIES

- Group raises that Halloran Trust Board should have an open dialogue with the local Aboriginal community.
- Austral notes that midden sites may be at-risk due to environmental impacts; raise whether management should prioritise access or preservation.
 - With regard to environmental impacts, Jerrinja Tribe agrees with prioritising access.
 - Jerrinja Tribe disagrees with idea of midden sites being hidden or disturbed; state that we should preserve and protect what remains, without interfering with natural processes.
 - Thoorga Nura agrees with Jerrinja Tribe statement.
 - Gary Caines, individual, disagrees with Jerrinja Tribe statement. Cited human impact on climate change.
 - With regard to environmental impacts, Gary Caines, individual, agrees with prioritising preservation.
 - Jerrinja Tribe raise that midden management should be undertaken by a management committee, including local Aboriginal stakeholders.
 - Jerrinja Tribe and Thoorga Nura raise monitoring as a component of the management strategy, state that strategy should be amended as new concerns become apparent or are found to have negligible impact.
 - Cite open dialogue between Aboriginal community, management committee, and Halloran Trust Board.
 - Austral confirm effectiveness of strategy in similar sites.
 - Sealark confirms that regular reviews of management policy, pending results of monitoring, is achievable.
- Jerrinja Tribe queries what organisation will manage or receive ownership of offset lands; further queries potential for local Aboriginal community to take ownership.
 - Sealark notes that current plan is for offset lands to go to Southern Cross. Notes that further discussions will need to involve Halloran Trust Board.

5.2 OUTCOMES

- AHIMS #52-5-1077 to be culturally excavated and removed to safe place by Jerrinja peoples, limiting impact of development on the site.
- Foreshore to be recorded and registered as an Aboriginal Place of significance to the Jerrinja Aboriginal community.
- Jerrinja site officers to be present during construction of blocks/ houses.
 - Incidental finds policy to be established.

To:Jake Allen <jakea@australarch.com.au>

Hello Jake on behalf of the Jerringa Tribal peoples , we have reed the West Culburra Aboriginal Cultural Heritage Assessment prepared by Austral Archaeology n agree in principle n believe Sealark n Austral have done their due diligence regarding Cultural Heritage Assessment Process n if passed to proceed , we would like more recommendations to be included as well. 1. Jerringa Tribe to do a Smoking ceremony over the entire subdivision site to let our Ancestors n Country know what's gunna happen soon when Construction starts n also we like to have fires burning all day around the outside n in the middle to Let all Our Animals have the Opportunity to move on Culturally, Spiritually n by themselves 2. That Jerringa Tribe n Jerrinja Lalc site officers be onsite when construction of infrastructure, such as water n sewer , power lines , as these lines will penetrate deeper into Country than the test pitting n these services are closer to sensitive areas near the middens sites, camp sites ,

3. We Want a Fence separating the subdivision site from the conservation/Cultural Area n Interpretation Signage facing the subdivision site explaining the sensitivity n significance of the area/Country Culturally n historically to help the new Residents understand n Respect n hopefully they will help to Preserve n Protect way into the Future. urs Ron Carberry Jerringa Tribal Leader Sent from my iPhone

Hi Jake,

Thanks for your ACHA and ACHMP for stage 4 West Culburra. We agree and support your recommendations.

Thanks Phil Khan
